## SUPPLEMENTARY INFORMATION

### Student Copyright Material

A student's copyright material includes works created by them, or those to which they have contributed. It is not limited to work they create in the course of their studies while they are enrolled at the school. A student's copyright material may include written work, artwork, digital content, audio visual work as well as music and performances. CSNSW and your school understands that a student generally owns the intellectual property rights in the material they create and that this Consent Form is not meant to transfer that ownership. It gives a licence to use the material.

### National Educational Access Licence for Schools Agreement (NEALS)

CSNSW together with your school and where relevant any associated Catholic Education Office and its schools are parties to an agreement between almost all educational institutions in Australia that allows each party to use another party's copyright material for free. Your school must obtain consent to allow other parties to use student copyright material under NEALS.

### Personal Information

Personal Information is information which is about a person whose identity can be reasonably known. This can include a photograph, video or digital image of a student. Schools should protect the privacy of students in the collection, storage and display of their images.

The purposes for collecting student images/works by CSNSW, Catholic schools and NSW Catholic Education Offices include:

- Recording of student participation within class and in school events, including inter-school events.
- Celebrating student effort and achievement, and
- Promoting Catholic schools and Catholic Education Offices, including CSNSW, and their activities.

### Consent

The use of digital media means that once personal information is collected and put on line, the school cannot control how it is used. The school must be mindful of this when collecting and using information and take reasonable care to ensure that the information is of a nature that it may not be exploited. The consent form is one way in which the school ensures that parents are fully informed about how the information may be used, and the consequences of their consent.
